Healthyag - Albrecht Soil Theory The Albrecht concept is very simple in its basic logic. Tests were initially done on soils that consistently grew the highest quality crop yields and it was found that these soils all had a similar chemistry with Calcium levels being between 60-70%* and Magnesium 10-15%*.

Healthyag - Albrecht Soil Theory

Summary: A comprehensive discussion of the amazing role of calcium in the soil and its effect on crops and animals, written by one of the greatest soil scientists of all time. Dr. William Albrecht, who chaired the soils department at the University of Missouri College of Agriculture, is known in the organic farming movement as the "father of soil fertility research."

ALBRECHT. Your acid clay is nothing more than one that doesn't have the positive ions on it — hydrogen, calcium, potassium, magnesium, sodium and the trace elements. I've got to have 65 percent of that clay's capacity loaded with calcium and 15 percent with magnesium. I've got to

have four times as much calcium as magnesium.

Albrecht Fleckenstein: Father of calcium antagonism

The ideal balance of cations that Bear and his gang came up with are almost identical to the ratios proposed by William Albrecht, a soil scientist working at the University of Missouri at this same time: Hydrogen, 20% (Albrecht said 10%), Calcium 65% (Albrecht said 60-70%), Magnesium 10% (Albrecht said 10-20%) and Potassium 5% (Albrecht's was 2-5%).

Soil Balancing: Does It Work? - On Pasture

The final insult to the revolutionary research of Dr William Albrecht is a complete misunderstanding of how to work out CEC or milli-equivalent figures based on soil test data. I have seen attempts where both calcium base saturation and magnesium base saturation are determined to be low, and yet the soil pH is between 6.5 and 7.0.

Arden Anderson takes the modern view: Calcium is THE KING OF ELEMENTS. "Calcium is at the head of the list of the strictly soil-borne elements required in the nourishment of Life" [From the Albrecht Papers Vol 1. p.144, 1996] For further information on the importance of Calcium please read Albrecht Papers Vol 1. p.144, 1996 [Acres USA].

Healthyag - Albrecht Soil Theory

Dr. Albrecht Albrecht was one of the premier soil scientists and was dismayed by the rapid chemicalization of farming that followed WWII, leading him to study soil fertility, and its complex relationship with human and animal health. His research paved the way for the first eco-agriculturists and continues to show the way to farmers the world over.
