Aoac Methods Of Proximate Analysis

Official Methods of Analysis SM (OMA) is the most comprehensive and reliable collection of chemical and microbiological methods and consensus standards available. Many Official Methods have been adopted as harmonized international reference methods by the International Organization for Standardization (ISO), International Dairy Federation (IDF), International Union of Pure and Applied Chemistry (IUPAC), and the Codex Alimentarius Commission.

AOAC is a leader in delivering international voluntary consensus standards, Official Methods of Analysis (OMA), Performance Tested Method SM (PTM) certification, laboratory proficiency testing programs, laboratory accreditation criteria, and scientific information and opportunities. AOAC methods are used globally to promote trade and to facilitate public health and public safety.
