Forced to be good: Why trade agreements boost human rights ...

Forced to Be Good is the best single treatment of the issue I have read. Emilie Hafner-Burton argues, counterintuitively, that it's not because human rights NGOs have affected norms. She shows that a shift in institutional politics within the United States and the European Union made it impossible for political executives to negotiate trade deals as they had in the past.

Forced To Be Good Why Trade Agreements Boost Human Rights

Instrumentally, what is good for a thing enables that thing to serve its purpose. Just as good is defined in relation to an end, the value of the end is defined in relation to another end. For instance, a hammer is good for driving nails. Driving nails is good for, among other things, building houses. We build houses to have shelter and warmth.
