HEART MURMURS is a very welcome collection from a confident, compelling poet. - Beth Ann Fennelly, author of Unmentionables., What I like most about the poems in John Vanek's first collection is his commitment to the poetics of clarity. Things are said straight in these poems, with careful attention to illuminating what the poet calls 'a shelter for my shifting life,' by which he means our lives as well.

Heart murmurs.....I'm trapped My breathing becomes erratic and warm blood rushes to the tips of my ears as I remember you. You showed me the world from a clean, glass window.

## **'Murmurs' poems - Hello Poetry**

Innocent heart murmurs. A person with an innocent murmur has a normal heart. This type of heart murmur is common in newborns and children. An innocent murmur can occur when blood flows more rapidly than normal through the heart. Conditions that may cause rapid blood flow through your heart, resulting in an innocent heart murmur, include:

## **Heart murmurs - Symptoms and causes - Mayo Clinic**

When listening to heart murmur sounds, note the timing within a cardiac cycle. Systolic murmurs are heard between S1 (first heart sound) and S2 (second heart sound). Diastolic murmurs occur between S2 and S1. Murmurs can occur within systole or diastole and terms such as early systolic, mid-systolic or late systolic are used in our lessons.

## **Heart Murmur Sounds - easyauscultation.com**

Heart murmurs are unusual sounds that the blood makes as it is pumped through your heart that can be heard through a stethoscope by a medical professional. Experts note that if you have a heart murmur, it's important that you follow the treatment plan prescribed by your doctor to avoid any serious health complications. [2]

## **How to Treat an Adult Heart Murmur: 9 Steps (with Pictures)**

Murmurs can be linked to a damaged or overworked heart valve. Some people are born with valve problems. Others get them as a part of aging or from other heart problems.

## **Heart Murmurs: Causes, Diagnosis, Treatment, Prevention**

A heart murmur is an extra or unusual sound that's heard between heartbeats. Your heartbeat makes a "lub-dupp" or "lub-dub" sound when the valves close and blood moves through the heart. A heart murmur is another type of sound, usually a whooshing or swishing noise, that can range from very faint to loud.
