Human Evolution: A Pelican Introduction - Pelican Books ...

Human evolution, the process by which human beings developed on Earth from now-extinct primates. Viewed zoologically, we humans are Homo sapiens, a culture-bearing upright-walking species that lives on the ground and very likely first evolved in Africa about 315,000 years ago. We are now the only living members of what many zoologists refer to as the human tribe, Hominini, but there is abundant ...

Human Evolution: A Pelican Introduction

A Pelican introduction to the social and cognitive changes that gave rise to modern humans. What makes us human? How did we develop language, thought and culture? Why do we need them? The past 12,000 years represent the only time in the sweep of human history when there has been only one human species.

Human Evolution A Pelican Introduction Books Robin Dunbar

Human evolution has always been viewed through the lens of anatomy and archaeology, with a clear focus on the "stones and bones" of the archaeological record. While this has spawned an interest in the cognitive aspects of human evolution (sometimes referred to as cognitive archaeology; Renfrew & Zubrow, 1994), in practice the focus has been on task analyses of the demands of tool-making ...
