Virology Reports was a peer-reviewed open access journal that welcomed short reports and research articles on research in virology, from molecular virology to virus ecology, evolution and phylogenetics, including novel virus full sequences (draft genomes with >50% coverage were also considered), virome shot-gun data when appropriate (e.g., from ...

Virology Reports - Journal - Elsevier

Virology Journal operates a single-blind peer-review system, where the reviewers are aware of the names and affiliations of the authors, but the reviewer reports provided to authors are anonymous.. The benefit of single-blind peer review is that it is the traditional model of peer review that many reviewers are comfortable with, and it facilitates a dispassionate critique of a manuscript.
