The 4 Types of Innovation and the Problems They Solve

Innovation is different from creativity and invention. While creativity and inventions are often solution-centric, successful innovations are inherently problem-centric. In fact, great innovators are indifferent to solutions as long as they solve the problem they are obsessed with. Steve Jobs was obsessed with the problems users experienced when they tried to take their music library on the road.

Beyond: The Problem with Innovation

An Innovation Challenge inspires people from around the world to focus their talent and creativity to compete for a prize purse while unlocking new ideas and innovations that can address a global issue that needs to be solved. For many problems facing our world, we need a variety of solvers — these problems affect all of us.

Innovation Challenges | National Geographic Society

The general problem-solving model can be described as involving the following steps: Identify the problem. Gather data/information. Clarify/diagnose the problem. Develop possible solutions. Analyse each possible solution. Implement and Evaluate. The creativity component becomes a dominant element when developing possible solutions (Step 4).
